## EDUCATION

B.Tech (Information Technology)	2021-2025	Dr. A.P.J. Abdul Kalam Technical University	
CBSE (Class-XII)	2021	D.A.V. Centenary Public School	78.16%
CBSE (Class-X)	2019	D.A.V. Centenary Public School	73.6%

## TECHNICAL SKILLS

Programming Languages	JavaScript, C++, C, HTML, CSS
Frontend	React.js, Next.js, Tailwind CSS
Backend & Databases	Node.js, Express.js, MongoDB, MySQL
Tools & Platforms	Git, GitHub, Vercel, VS Code
Other	Full Software Development Lifecycle (SDLC), RESTful API Design, Problem-Solving

## PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern *Cincooni Systems* | December 2024 – March 2025

- Carttart Platform Development:** Led the development and deployment of **Carttart**, a B2B web platform connecting the startup with biotech and pharmaceutical clients.
- Feature Implementation:** Built and integrated full-stack features including responsive user interfaces, **role-based access control**, and robust backend logic for service listings, client inquiries, and dashboards.
- Workflow Digitization:** Digitized client engagement workflows, enabling users to browse services, request quotes, and manage contracts, resulting in streamlined operations and boosted client interaction.

## PROJECTS

### 1. MERN Blog Application

- Stack: MERN (MongoDB, Express.js, React, Node.js), User Authentication
- Built a comprehensive full-stack blog application demonstrating the full SDLC.
- Implemented **user authentication** (Login/Signup), **CRUD** (Create, Read, Update, Delete) operations, and **RESTful API design** for seamless data flow.
- Link: <https://mern-blog-yzyv.vercel.app>

### 2. Personal Portfolio Website

- Stack: *React.js*,
- Designed and developed a fully **responsive, modern personal portfolio** to showcase technical skills and development projects.
- Focused on clean aesthetics and intuitive UI/UX to ensure a strong first impression on potential employers.
- GitHub Link: <https://github.com/bhumirawat/Portfolio>

### 3. URL Shortener Service

- Stack: Node.js, Backend Logic, Database Integration
- Developed a back-end application capable of taking a long URL and generating a short, unique identifier for redirection.
- Demonstrates proficiency in **server-side development** and efficient database management for URL mapping.
- GitHub Link: <https://github.com/bhumirawat/urlShortner>

### 4. Real-Time Currency Converter

- Stack: HTML, CSS, JavaScript, Responsive Design
- Created a dynamic web tool that fetches and displays real-time exchange rates.
- Showcases strong **Frontend development skills** using React and experience integrating with external APIs.
- Link: <https://cash-converter-b1.netlify.app>

## ACHIEVEMENTS & EXTRACURRICULAR

- IBM SkillsBuild Internship:** Selected for a 6-week intensive internship focusing on **Data Analytics** and **Front-End Web Development (FEWD)**, involving real-world projects and masterclasses led by industry experts (June – Aug 2024).
- Certifications in Core Competencies:** Completed and verified certifications from IBM SkillsBuild and Coursera, showcasing proficiency in crucial professional domains:
- Google Cybersecurity Certificate (Coursera)**
- Project Management Fundamentals (IBM SkillsBuild/IPMA)**
- Web Development Fundamentals (IBM SkillsBuild)**
- Explore Emerging Tech (IBM SkillsBuild)**
- MERN Stack Mastery:** Demonstrated complete proficiency in the MERN stack by building the MERN Blog, implementing advanced features like user authentication and secure RESTful APIs.
